Pre-HSE Core Skills in Social Studies
This NEBOSH-endorsed textbook is matched to the latest syllabus of the National Certificate in Construction Safety and Health. Within the construction industry the need for specialist health and safety training is high due to the high risks involved. This is reflected in recent legislation such as CDM 2007 and explains the consistent demand for courses and learning materials. The text is easy to read, highly illustrated in full color, and supported with checklists, report forms and record sheets used currently in the industry. Students are supported with end-of-chapter questions, a study skills chapter and specimen assignments including specimen answers. As NEBOSH actively grow their qualifications internationally, demand for this book and its sister titles continues to increase overseas. High growth markets are the Middle East, Malaysia, India and China.

Building Services
This second edition of HSG85 gives guidance on the key elements that need to be considered when devising safe working practices for people who carry out work on or near electrical equipment. It includes advice that is relevant to managers and supervisors who control or influence the design, specification, selection, installation, commissioning, maintenance or operation of electrical equipment. The first edition was published in 1993 and this new version updates the guidance and provides sources of further information.

Books in Print
El-Hi Textbooks & Serials in Print, 2005
A workbook of example and practice questions to build a solid foundation of skills in reading fiction, prose, poetry, drama and nonfiction, as well as English language grammar and usage, and writing paragraphs and essays, as measured by the GED, TASC, and HSET high school equivalency reading and writing tests; includes answers and explanations for all lesson exercises, and pretest and posttest questions.

Parliamentary Debates (Hansard).

Pre-HSE Core Skills in Science

The purpose of this special issue of “Cognitive Neuropsychology” is to provide a forum for new findings and critical, theoretical analyses of existing data from patient and functional brain imaging studies.

Electricity at Work

Ten papers of thirty questions each cover the entire syllabus, with questions pitched at the right level for the exam.

Introduction to Health and Safety in Construction

This title contains both invited and contributed papers on a wide range of subjects in the broad field of radiation protection. With contributions from all over the world, these proceedings reflect the international nature of the meeting. Containing recent research and data in all areas of importance in the field, this book will be invaluable to radiation protection officers, medical physicists, health and safety officers and laboratory superintendents.

Research and theory on self-esteem have flourished in recent years. This resurgence has produced multiple perspectives on fundamental issues surrounding the nature of self-esteem and its role in psychological functioning and interpersonal processes. Self-Esteem Issues and Answers brings together these various perspectives in a unique format. The book is divided into five sections. Section I focuses on core issues pertaining to the conceptualization and assessment of self-esteem, and when self-esteem is optimal. Section II concentrates on the determinants, development, and modifiability of self-esteem. Section III examines the evolutionary significance of self-esteem and its role in psychological processes and therapeutic settings. Section IV explores the social, relational, and cultural significance of self-esteem. Finally, Section V considers future directions for self-esteem researchers, practitioners, parents and teachers. This volume offers a wealth of perspectives from prominent researchers from different areas of psychology. Each expert contributor was asked to focus his or her chapter on a central self-esteem issue. Three or four experts addressed each question. The result is that Self-Esteem Issues and Answers provides a comprehensive sourcebook of current perspectives on a wide range of central self-esteem issues.
